SUPERVISORY PATENT EXAMINER

Allowable Subject Matter

Claim's 1-36 are allowed.

The following is an examiner's statement of reasons for allowance: Claim's 1-36 are allowable because the information in the claims do not read as obvious subject matter on any other prior art. The closest prior art found was by the same assignee, in addition to the prior art submitted by the applicant. The first part of the independent claims is similar to these prior arts until the data loss probability estimation means. From this point on in the independent claims the method is altered significantly and is not altered in an obvious matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional reference not used in a rejection shows a similar method of encoding a motion picture.
